Ward population estimates 2011-2021

About this data: This factsheet summarises 2021 and 2011 census population estimates for Brent wards. These estimates were produced by the Greater London Authority (GLA) and were based on census counts at output area level from the Office for National Statistics (ONS). Where output areas are split over ward boundaries, data were apportioned to each ward based on the number of residential addresses in each area. Note: The GLA's ward estimates may differ slightly from other census ward figures published by others (e.g. ONS, LGA). This is due to differences in methodologies used to create ward data.
